**Ten-Year Retirement Projection  
FY 1969 - FY 1978  
GS-12 through GS-18**

**Notes**

Retirement eligibility dates were established on the basis of the earliest date on which an individual became eligible to retire under either the CIADS or CSC system. Mandatory dates were based on the year during which the employee becomes 60 years of age (or the few cases of age 62). The groups of eligibles contain the mandatory retirements which are extracted and shown separately to reflect the two extremes in the number of people who may or who must retire.
